Training overview

This intensive small animal laparoscopic and endoscopic training is designed for veterinary professionals seeking to start and develop their skills in minimally invasive surgery and diagnostics in a supervised, clinical environment.

Participants will get direct experience with basic laparoscopic technique, laparoscopic spay and diagnostic and interventional endoscopic techniques

Faculty

Dr Vikash S Chauhan

Dr. Vikash serves as the Assistant Director and Senior Veterinarian at CGS Veterinary Hospital, Gurgaon, specializing in endoscopy, laparoscopy, orthopedics, and spine surgery. As a distinguished faculty member at World Laparoscopy Hospital, he has trained over 100 surgeons in advanced minimally invasive techniques. He regularly delivers expert lectures, including CT scan training for the National Veterinary Foundation. Additionally, he authored the chapter "Basics of veterinary laparoscopy" for an upcoming textbook published by IVRI and BHU. Through his specialized clinical practice, academic training, and scholarly contributions, Dr. Vikash remains at the forefront of modern veterinary medicine.

Dr Tarun Nar Singh

Dr. Tarun Nar Singh is a Gold Medalist and Specialty Associate Surgeon at MaxPetz, specializing in veterinary neurology, neurosurgery, orthopedics, and reconstructive surgery. Trained in Brazil across leading centers in Rio de Janeiro, São Paulo, and Salvador, he brings internationally recognized expertise to complex small animal procedures. Since 2023, he has been actively performing advanced neurosurgeries in India with a special focus on spinal surgery, neurological disorders, and 3D surgical planning. Through his clinical excellence and modern techniques, Dr. Singh continues to advance the standards of specialized veterinary surgical care.

Dr Abhishek Shokeen

Dr. Abhishek Shokeen is a specialist surgeon and the founder of ANIMED Veterinary Hospital, specializing in advanced orthopedics, soft tissue surgery, and minimally invasive procedures (laparoscopy and interventional endoscopy). He holds a PgC certification in Small Animal Surgery from Harper Adams University (UK), following advanced surgical training across Ireland and the United Kingdom. His core clinical interests focus on traumatology, neurosurgery, limb salvage, and minimally invasive techniques. Through his international training and advanced practice, Dr. Shokeen delivers cutting-edge, specialized surgical care to his patients.

Why attend this workshop

- ***Live Hands-On laparoscopy & Endoscopy Training***
- ***Elevate your Clinical Skills***
- ***Accreditation Certificate from PLRC, India***
- ***Peer Networking Opportunities***
- ***Expert Faculty Guidance***

REGISTRATION DETAILS

WORKSHOP FEE & ENROLLMENT PROCESS
